

Stainless Steel Canopies

Desert Wolf everlasting canopies are ideal for all quality conscious off-road enthusiasts and are designed to fit most popular LWB and double cab LDVs. These canopies have been manufactured exclusively for car rental companies such as Avis for more than 10 years and Desert Wolf is now proud to introduce them to YOU!

Everlasting quality

The design and layout of this robust canopy is inspired by the icon of quality and durability, the Desert Wolf off-road trailer series. In true Desert Wolf tradition we only use the best austenitic Stainless Steel guaranteeing rust-free surfaces. The product is scratch and dent resistant and will never show its age. Precision laser cut panels are meticulously welded together to create the most durable, dust proof and aesthetically pleasing canopy.

Be sure it's stainless steel

Special purpose canopies

Professional applications of Desert Wolf canopies include specialized designs for applications from emergency response to the military. Service vehicle canopies with customised drawer systems and utility rack systems manufactured from stainless steel has clear durability and cost advantages over conventional steel, aluminium or fibre-glass products. Contact us to discuss your specific requirements - with our advanced 3D modelling software your conceptual ideas can be fully visualised before construction.
